US POWER SOLUTION INDUSTRIES (USPSI), headquartered in Rancho Cucamonga, California, provides innovative products and diverse power solutions to help people enjoy an ergonomic and convenient lifestyle. USPSI manufactures and assembles at facilities in Delavan Wisconsin USA, Hai Phong Vietnam, and Changzhou China. This arrangement allows us to strike a perfect balance of competitive pricing, quality products, and outstanding customer support.

USPSI is focused on producing a variety of unique and useful components such as electronic control systems, motors and linear actuators for sit and stand office furniture, power-reclining chairs and sofas, hospital beds, commercial floor care equipment, and applications for the RV market. Including ergonomic office furniture, gear motors, AC and DC brush motors, AC induction motors, permanent magnet DC motors, hub drives, linear actuators, logic controllers, and gear reducers.

Our factories meet or exceed ISO 9001 (2008) and ISO 1400 (2004) standards, and our products have been certified by UL, ETL, BIFMA, EN527, CE, EMC, and CSA. We currently sell 80% of our products to North America, Europe, and Australia.

“Power solutions that work for you.”
